

Autism Spectrum Disorders & ADHD Workshop

New Insights Into Drug-Free Solutions For Children and Parents

HealthWalk will host internationally respected **Autism/ADHD experts** to speak about the latest solutions to these growing health challenges. Autism has grown from 1 in 10,000 diagnosed cases in 1996 to one out of 154 children in California in 2006. This workshop is ideal for parents, care givers, teachers and anyone who has an association with children and adults with Autism/ADHD.

- Progressive drug-free therapies
- How to work effectively with the school system and county services
- Improving communication with teachers and counselors
- Strategies that keep the family unit together and thriving

Saturday, September 27, 2008
